

Yoyo - surface mounting

Design: C.F. Møller Architects

Yoyo is a range of elegant interior light fixtures with low height.

CF Møller Architects have created the Yoyo family in the slim and elegant design. Characterised by the parabola finished by distinct profiles at both ends, the Yoyo light fixtures seem floating - a unique and sculptural expression.

Being edge lit, the Yoyo fixtures are free from dots and shadows from other components. They are available with opalised or prismatic shades featuring the diffuse or the directed light.

The height of the Yoyo fixtures is 51 mm, and they are ideal for any application on wall or ceiling, including staircases, corridors, etc.
